DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-10 and 31-35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is an apparatus claim and an apparatus claim is basically a combination of structurally interconnected elements but in line 3 the phrase "input specifications for specifying" fails to be the recitation of structure. The phrases "the response optimization", claims 31-33; "said filter implementation type", claim 34; and "said input user specifications", claim 35; lack clear antecedent basis.

Allowable Subject Matter

2. Claims 1-10 and 31-35 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

3. Claims 11- 30 are allowed.

Specification

4. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.
